[Essentials of River Canoeing](#)

The workshop will focus on learning theory, instructional techniques and strategies suitable to canoe instruction, and creating a safe paddle course environment. You will try out these strategies in an encouraging atmosphere. Participants will have the chance to tune up their paddling skills, practice rescue scenarios and share their knowledge and skills with their classmates.

Participants' teaching ability, paddling skills, technical knowledge, leadership, judgment, and rescue and safety competence will be evaluated. Students may be certified at either level. Participation does not guarantee Certification but opportunities to work toward certification after the class will be available if needed.

Pre-Workshop Requirements
